CATALOGUE

CEO MESSAGE

Dear Valued Clients and Partners,

We continue to evolve alongside the needs of modern businesses, blending innovation with purpose. We believe gifting should be more than a transaction — it should reflect the giver, embody the brand, and leave a lasting impression. Every year, we embrace the latest technologies to transform corporate gifts into meaningful experiences.

One of our boldest decisions was to create products powered by Artificial Intelligence (AI). What was once a simple gift has now taken on a greater purpose, with technology turning it into something truly rewarding and impactful.

Looking ahead to 2026, we're also proud to introduce our newest in-house brands — Oryx and Botella — designed to combine style, functionality, and sustainability in the world of corporate gifting.

Thank you for trusting us as your partner in delivering gifts that spark innovation, create impact, and build lasting connections.

CEO

OUR VISION STATEMENT

"Our vision is to be the premier provider of quality and functional corporate gifts, known for our innovation, reliability, and excellence. We strive to enhance the corporate gifting experience by offering products that not only meet the highest standards of quality but also resonate with the values and aspirations of our clients. Through continuous improvement and a commitment to sustainability, we aim to build lasting relationships and create memorable experiences that reflect the essence of true appreciation and goodwill."

Enhanced Experience with AR Technology

Our 2026 Catalogue is more than just pages of products—it's an interactive experience. With AR technology, every product comes to life at your fingertips. Simply scan the QR code beside an item, and instantly explore its 3D model in real-time.

From every angle, up close or in your space, you can visualize the product as if it were right in front of you. This innovative feature ensures you make confident choices and experience the true look, feel, and functionality of our corporate gifts—before they even reach your hands.

- See the product from all angles
- Make faster, more informed decisions
- Understand the branding and design details better

We've combined design, technology, and convenience to create a catalogue that's not only informative but also engaging and future-ready.

Artificial Intelligence (AI)

"A computer or machine's ability to think, perform and learn like humans."

How AI works on Gifts and Promotional Product Items?

It added value to the item as its optimum feature such as

- Recording that creates minutes of meetings, speech, presentation, key points or others
- Translating one language to another
- Simultaneous interpretation
- Voice to text recognition

I WAS A BOTTLE

"RPET is produced by recycling PET plastic bottles and containers. This process involves collecting, cleaning, and melting down used PET products to create new RPET material."

How is it Made?

RPET FAMILY

Economic Benefits

Producing RPET can be more cost-effective than creating new PET from raw materials, especially as the demand for sustainable materials increases.

Environmental Impact

RPET helps in reducing plastic waste by diverting used PET products from landfills and oceans.

Ocean Plastic Pollution Undertanding the issues

Ocean plastic pollution is a crisis of monumental scale, affecting not just marine ecosystems but also the global climate and human health. Our oceans act as the Earth's life-support system, regulating climate, providing habitat for millions of species, and offering resources that sustain human civilizations. The escalating intrusion of plastic waste into these crucial waters poses a dire threat, disrupting this delicate balance and casting a shadow on our collective future.

NFC TECHNOLOGY

All it takes is a tap.

Every day millions and millions of people use NFC technology to connect to things and the world around them. It's the super-fast and secure way to pay for things, ride the train, unlock a door, start your car, and even connect to the brands we all love.

What is NFC and how does it work?

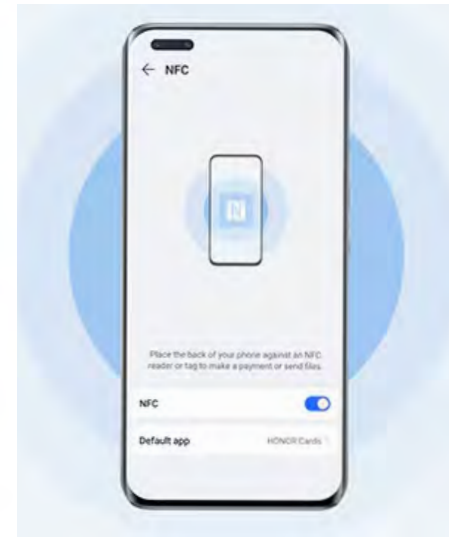

NFC, or Near Field Communication, is a short-range wireless technology that enables secure communication between devices located just a few centimeters apart. It operates at 13.56 MHz for fast, simple data exchange with a tap.

SHARE
CONTACT
THRU NFC

ENGAGE IN JUST 1 TAP!

Share your contact or data to your clients in just a tap.

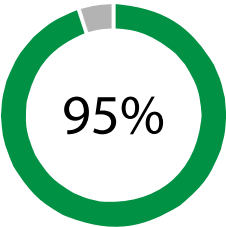

Eco-friendly: Uses up to 95% less energy compared to producing new aluminium from raw bauxite ore.

Why It's 95% More Energy-Efficient:

- Avoids mining, refining, and electrolysis.
- Melting scrap aluminium is far less energy-intensive.
- Reduces carbon footprint, water use, and environmental degradation.

SUSTAINABLE

RECYCLED BAMBOO

Bamboo, one of the fastest-growing plants on Earth, is harvested sustainably and transformed into soft, breathable fibers. Through an eco-conscious recycling process, used bamboo materials are broken down, regenerated, and reborn into innovative, reusable fabrics, giving waste a second chance and nature a cleaner future.

BAMBOO MATERIAL

Naturally antibacterial, lightweight, and biodegradable, bamboo offers a perfect balance of function and sustainability. Its smooth texture and organic look make it a favorite for eco-conscious designs, especially in products like home-ware, office essentials, and corporate giveaways.

Choosing bamboo means supporting a greener future—without compromising on quality or style.

WHEAT STRAW MATERIAL

Utilizing wheat straw for new products helps reduce agricultural waste, which would otherwise be burned or left to decompose, contributing to air pollution and greenhouse gas emissions.

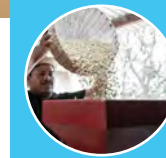

MANUFACTURING PROCESS

ALL YOU NEED TO KNOW ABOUT RECYCLING WHEAT STRAW MATERIAL

1 COLLECTION AND CLEANING

Wheat straw is collected post-harvest and cleaned to remove impurities.

2 PULPING

The cleaned straw undergoes a pulping process to break it down into fibers, which can then be molded or processed into various products.

3 MOLDING & PROCESSING

The straw fibers are molded into desired shapes or combined with other materials to create composite products.

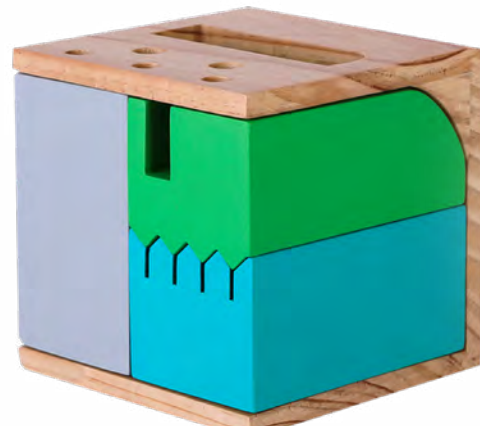

WHEAT LUNCH KIT

E6050

'A Sustainable single layer lunch box made of recycled wheat straw material with PP and bamboo cover. Has Spoon, Fork and Knife in a brown elastic band for better closure.

ECO-FRIENDLY TOYS

Incorporating eco-friendly toys into your corporate branding strategy is more than just a trend; it is a meaningful way to demonstrate your brand's commitment to sustainability and social responsibility. The benefits are multifaceted, ranging from enhanced brand reputation and customer loyalty to positive environmental impact and differentiation in the market. By embracing eco-friendly toys, your brand can make a lasting impression that resonates with consumers and sets the stage for a sustainable future.
